

Dear Bohua members,

Census 2010 is coming soon. The federal government distributes more than \$400 billion annually to state, local and tribal governments based on census data. Census data guide local decision-makers in important community planning efforts, including where to build new roads, hospitals and schools. So it's important for our community members to participate and get counted.

Peter Lee is the Partnership Specialist for Asian community at regional census office. He is going to come to Bohua this Sunday (3:00PM~3:45PM) to talk about how are census data used? Who needs the Census? Why Census is so important, safe and easy? How we take the Census?

Please come to the office room (CR_811) at 3:00PM to learn more about Census 2010.

Thanks.

Dedicated volunteer Bohua Management Team

School starts at 1 pm

Language classes start at 2 pm
